### **Baseline Report on Communities First - Report structure and example map and text**

#### **Structure**

Introduction

Introductory map showing all Communities First areas spread across Wales.

Outline figures from the Department of Work and Pensions for Communities First areas compared to the whole of Wales in 2001.

Explanation of the need for a baseline from the beginning of the Communities First programme.

Rationale for the use of Census data and that the next update will be available in 2011.

Rationale for the use of DWP data.

Limitations for use of the data in the report.

#### **Main Body of Report**

The main section of the report will contain a map and series of statistical tables for each Communities First area, an example of which is provided below.

Whilst currently only provided in English for the purposes of the Committee meeting model, the map will be fully bilingual and outline the Lower Super Output Areas within the Communities First ward.

The subsequent table will also be bilingual and show figures for the whole area, drawn from Lower Super Output area statistics.

#### **Example map and text**
