February 2006

Dear Sir or Madam,

Consultation on Rail Infrastructure and Improved Passenger Services

The National Assembly for Wales has recently established the Committee on Rail Infrastructure and Improved Passenger Services, under Standing Order 8.1.

Its terms of reference are:

- To formulate a programme of costed, achievable improvements in rail infrastructure and improved passenger services affecting Wales; and
- To make recommendations to the Assembly on the improvements identified.

The Committee is undertaking a public consultation and wants to know:

1. What improvements you would like to see to rail infrastructure; in particular, new routes or enhancements to existing routes.
2. What improvements you would like to see to rail passenger services; including comfort, reliability, safety, frequency or any other feature you consider to be important.
3. If you have any other comments or suggestions relevant to this inquiry.

Please submit your responses, preferably by e-mail or otherwise in hard copy, to:

**Miss Leanne Hatcher,
Committee on Rail Infrastructure and Improved Passenger
Services,
Committee Service,
National Assembly for Wales,
Cardiff Bay
CF99 1NA.**

The e-mail address is economic.comm@wales.gsi.gov.uk.

If submitting your response by e-mail, please use title - **Public Consultation**

Submissions should be sent to arrive by 3rd March 2006.

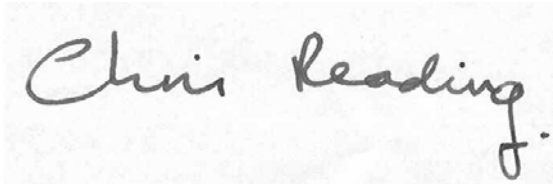

It may not be possible to take into account responses received after this date.

Please note:

- Your response should be brief and to the point; please reference your response with the relevant question number.
- It is normal practice for the National Assembly to publish evidence either within a report, or as supplementary evidence to a report. We will not publish information which we consider to be personal data, such as name and contact details, unless consent has been provided or these are details relating to an organisation.
- The National Assembly operates within the Data Protection Act 1998 and the Freedom of Information Act 2000.
- If any information, other than personal data, is being submitted that is regarded by the provider not to be suitable for public disclosure, it is up to the provider to stipulate what part(s) of the information should not be published and provide a reasoned argument to support this. The National Assembly will take this into account when publishing evidence in accordance with the Freedom of Information Act 2000.
- In the event of a request for information, it may be necessary for information which has been provided either as evidence, communication or any other written information, to be disclosed. This may include information which has previously been removed by the National Assembly for publication purposes.
- Please indicate whether you are responding on behalf of an organisation, or as an individual.

We look forward to hearing your views.

Yours faithfully,

A handwritten signature in black ink on a light-colored background. The signature reads "Chris Reading" in a cursive style, with a small flourish at the end of the last name.

Chris Reading

Committee Clerk
