I live in XXXXX, North Wales and work just over the border in a high school in XXXXXXXXXX XXXX. My concern is that England and Wales will potentially take different approaches to a return to school which could possibly produce a child care dilemma. I have a 7 year old entering year 3 and a 21 month old who accesses nursery. Navigating potential part time timetables, reduced hours in nursery's alongside how my school choose to approach a return to school concerns me.
