 July 2015

Dear 

In response to your question to me as the Minister for Natural Resources on the 15th July, I agreed to write to you with appropriate information.

Your question was *"in terms of the plastic that is collected by our councils, in the main, from people's homes, how much of that plastic, because of its quality, ultimately ends up in landfill? Do you have a percentage or a weight?"*

Regrettably this sort of information is not collected and published via Stats Wales, which is where municipal waste data is made available to the public.

Yours sincerely
