Consultation questions

1. How important is outdoor education to children and young people's overall education and development?

- Very important
- Quite important
- Don't know
- Not very important
- Not at all important

2. What are the main benefits to children and young people from having a residential outdoor education experience? Please list your top three benefits:

Provide opportunities to develop independence

Promote team work and collaboration in a safe environment

Experience activities that may not be accessible to them within own family context

3. Should children and young people have a guaranteed opportunity to participate in a residential outdoor education experience, at some stage during their school years, if they wish to?

- Yes
- No
- Don't know

4. Should an opportunity to participate in a residential outdoor education experience, at some stage during their school years, be free of charge on one occasion to pupils?

- Yes
- No
- Don't know

5. What are the main barriers which you believe currently exist to children and young people accessing residential outdoor education experiences? (please tick all that apply)

- Financial constraints
- Health reasons
- Disabilities
- Additional Learning Needs
- Parental anxiety/uncertainty
- Child anxiety/uncertainty

- Other (Please state)
- None

6. Equalities considerations:

Could the proposed Bill have any positive impacts on some children and young people in particular? If so, who and why?

Enables all young people to have the same experience and therefore promotes inclusivity and equality

Could the proposed Bill have any negative impacts on some children and young people in particular. If so, who and why? What could this Bill do to mitigate any negative impacts?

A week is too long for some children and should be considered as a shorted experience e.g three days

7. What age do you believe is most suitable for children and young people to be offered an opportunity to undertake a residential outdoor education experience?

- Year 6 (age 10-11)
- Younger (please state)
- Older (please state)
- Not at any age

8. Is four nights/five days the best length for a residential outdoor experience?

- Yes
- No
- Don't know

Please explain your answer and highlight any possible implications from having a standard approach of four night/five day experiences (whether positive or negative).

For some children who are not emotionally or socially mature, this is too long to be away from home and can be very disruptive to children and staff on a residential.

9. Do you agree there is a need for legislation to ensure all children and young people are given an opportunity to access a residential outdoor education experience, at some stage during their school years?

- Strongly agree
- Agree
- Neither agree nor disagree
- Disagree
- Strongly disagree

10. Is there anything else you would like to say about this proposal?

With such budget constraints upon schools and the education sector, where is this money going to come from? If it would mean a reduction in funding to all schools, this would be very negatively received.

It is very difficult to staff residential as this often requires using a number of other school staff which then have to be backfilled as an additional cost. Many staff do not want to attend residential due to family commitments etc. I do not think this can be enforced.
