Good evening,

I apologize for the lateness of this email but I have only just become aware of this consultation. I am writing to raise awareness of the impact of Long Covid on young people in Wales. I have personal experience of a child that is suffering due to the effects of Long Covid and the profound impact it has had on her mental health, education and physical well-being. She and her family have been offered little to no support across the various services that are in place to support young people. This has resulted in consistent non-attendance of school, a medical emergency and a severe impact on the whole family. She has been failed by the school, the health board and the government. I ask that this be considered in this consultation. I am willing to provide further information if required.

Thank you for taking the time to read my email and I would welcome and very much appreciate a response.

Many thanks,

Kayleigh Cooper
