27 February 2013

I am responding to your letter of 6th February enclosing the further letter dated 19 January from Llanddewi Velfrey Community Council.

In the next few weeks my officials will be submitting the prioritised bid for the 2013/14 financial year for my approval. The bid includes a proposal to undertake the design and implementation of the speed limit enhancement works in the form of repeater signs, roundels and gateway enhancements.

The speed limit review for the A40 between Llanddewi Velfrey and Scotchwell Roundabout, Haverfordwest will be undertaken in the coming financial year. This will include the investigation of a 50 mph buffer speed limit to the west of the village. This was first identified in the speed limit review undertaken for the 40 mph section through the village and intended to help ensure a consistent layout on both approaches.

My officials are not aware of any formal correspondence between the Community Council and the Trunk Road Agent which suggests that this buffer may only be appropriate if the existing 40 mph limit in the village is shortened. They have also advised there are no emerging safety issues but will continue to monitor the situation. The process to appoint an Employer's Agent for the A40 Llanddewi-Penblewin Improvement scheme has commenced and this appointment is currently programmed for June 2013.

I have asked that my officials keep you informed of the outcome of this process.
