

**P-06-1543 Keep weekend opening at Cardigan minor injuries unit -
Correspondence from the Petitioner to the Committee, 16 January 2026**

Hello,

Thank you all for looking at this and taking the matter seriously,

Whilst I understand this is of a funding issue,

Public health and service should be considered too, people are dying due to the travel times involved also the pressures on staff at the other hospitals in the region must also be considered.

Many thanks

Mark Gibbins
