

**Pwyllgor Cyfrifon Cyhoeddus  
Public Accounts Committee**

Ann Jones AM  
Children and Young People  
Committee

10 December 2013

Dear Ann,

**Capital Investment in Schools**

At our meeting on 3 December 2013 the Public Accounts Committee considered an update from the Welsh Government on our report on Capital Investment in School. The inquiry focused on primarily the 21st Century Schools Programme and its potential to address past weaknesses in the planning and management of capital investment in schools.

We agreed there was merit in sharing the correspondence with the Children and Young People Committee to inform the Committee's general scrutiny of the Minister for Education and Skills.

A copy of the correspondence is attached.

Yours sincerely

**Darren Millar AM  
Chair  
Public Accounts Committee**

Owen Evans

Welsh Government

Darren Millar AM  
Chair  
Public Accounts Committee  
National Assembly for Wales

Dear Darren,

## Capital Investment in Schools

Thank you for your letter dated 11 October requesting further clarification on some of the points provided in my response to the Committee in August.

For ease of reference my response is provided below, applying the same corresponding headings as set out in your letter:

### 1. Timescales for making schools fit for purpose

As detailed in my previous letter the 21<sup>st</sup> Century Schools Programme supersedes the previous ambition of the “fit for purpose” aim of the former building investment programme; the Schools Buildings Improvement Grant (SBIG).

This means that investment proposals are no longer measured against a “fit for purpose” type standard and that the expectation of the new programme, and its appraisal process, goes beyond the concept of putting schools in a reasonable standard of repair. This is why in my previous response I stated that the new programme aspires to be more than that of building investment and that it was seeking to put to an end to the piecemeal “patch and mend” mentality that was prevalent in the last programme.

#### *Setting a Programme Standard*

In developing a forward long-term strategic investment programme the first stage of planning is the preparation of a Strategic Outline Programme. As outlined in previous evidence to the Committee the Strategic Outline Programmes submitted were assessed against a high-level set of criteria, which is provided at **Annex 1**. This high level set of criteria clearly sets out the expectations of the programme; which was supported by a wide ranging sub-set of specific assessment criteria.

Upon completion of the assessment process, all 22 Strategic Outline Programmes were eventually approved. Local authorities are now in the process of submitting business cases for all those projects they outlined in the first wave of their programmes; with all of these projects being at varying stages of planning and delivery.

### *Project Assessment Standards*

A requirement of the programme is that all business case submissions are made in accordance with the HM Treasury 5 Case standard which means that each investment proposal is assessed against the following:

- Is there a robust case for change – the ‘strategic’ case;
- Does the project optimise value for money – the ‘economic’ case;
- Is the proposal commercially viable – the ‘commercial’ case;
- Is the project financially affordable – the ‘financial case’; and
- Is the project achievable/can it be delivered – the ‘management’ case.

To further reassure the Committee, in addition to the submission of the business cases, each project is developed with the support of Building Bulletins, which are specific guidelines for those involved in new school building and refurbishment projects, along with further technical information on project delivery and best practice for aspects such as transforming the learning environment, school design, school grounds, procurement and project management.

## **2. Capital Planning**

### *Category C Schools*

A list of the Category schools is provided at Annex 2. I would again like to remind the Committee that the survey was undertaken three to four years ago, in 2009/10, and provided a “snapshot” of the condition at that time, and that a new survey is already planned.

As noted above in Section 1, projects in the first wave are all at varying stages of planning and delivery. This means that a proportion of Category C schools have not yet been named nor were they specifically identified in the Strategic Outline Programmes. This is because they have not yet gone through the statutory determination process for school organisation which is why an estimated percentage of the Category C schools in the first wave was detailed in my last response.

Outcomes of school organisation consultation do determine the scope of school investment projects in the programme so ordinarily, where there a pending consultation in relation to a school organisation proposal, we would not expect school names to be provided until the project is at Full Business Case stage, or at best, the earlier stage of Outline Business Case stage.

### *Prioritisation of Projects in the First Wave*

In summary, Welsh Government requested local authorities to prioritise their investment proposals in the first wave against condition, surplus places and running efficiencies (e.g. reduction in running costs, backlog maintenance) but also enabled authorities to prioritise investment where there was a need to address Welsh Medium and/or Faith Based Education issues. The local authorities then determined which investment proposals were to be incorporated in the first wave of investment on the basis of local need and local circumstances; within the programme cost envelope that was available.

## **3. The need for a holist approach to school investment**

### *Asbestos Surveys*

My response here is to firstly point out that, that the enforcement of the relevant legislation (the Control of Asbestos Regulations 2012) falls to the Health and Safety Executive (HSE) and not the Welsh Government, as does the remit for the provision of advice and guidance.

So in essence this means that we do not do anything differently here in Wales to in England. The types of survey that should be conducted in relation to asbestos are, therefore, defined by the HSE. In summary, the HSE inform that 2 types of surveys of asbestos should be undertaken which are a:

1. Management Survey; or
2. Refurbishment/Demolition Survey.

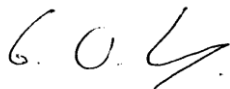

Neither of these surveys is purely comprised of visual inspections but they do have varying levels of intrusiveness.

A Management Survey is required to enable the management of Asbestos Containing Materials (ACM) during the normal occupation and use of premises and aims to ensure that: nobody is harmed by the continuing presence of ACM in the premises or equipment; that the ACM remains in good condition; and nobody disturbs it accidentally. It involves minor intrusion and minor asbestos disturbance to make a Materials Assessment. This shows the ability of ACM, if disturbed, to release fibres into the air and guides the client, e.g. in prioritising any remedial work. It is this survey that is used to inform the Asset Management Plans that are required. Responsibility for having these Asset Management Plans in place, and the actual management of asbestos, lies with the duty-holder and in the school premises context, this can either be the local authority or the school governing body.

The Refurbishment/Demolition Survey is required where the premises, or part of it, need upgrading, refurbishment or demolition. This survey does not need a record of the ACM condition and aims to ensure that: nobody will be harmed by work on ACM in the premises or equipment; and such work will be done by the right contractor in the right way. The survey must locate and identify all ACM before any structural work begins at a stated location or on stated equipment at the premises and involves destructive inspection and asbestos disturbance. When this type of survey is conducted the area surveyed must be vacated and certified 'fit for reoccupation' after the survey.

I trust the content of this letter provides clarification requested on the points the Committee raised with you.

Yours sincerely

A handwritten signature in black ink, appearing to read 'O. Evans', with a stylized flourish at the end.

**OWEN EVANS**

CRITERIA	SUMMARY OF RATIONALE
<b>1. HIGH-LEVEL INVESTMENT OBJECTIVES</b>	
1 School improvement strategy	Strategies are in place for school improvement, where necessary, and where appropriate for joint working at WAG/consortia/authority/school level.
2 Transformation of approaches to teaching and learning, incl. use of ICT	Local authority and schools have worked to implement a vision for teaching and learning that is more than just a building programme, drawing on available best practice guidance, including BECTA's publication: " <i>Transforming education and training through effective use of technology in capital programmes</i> ". The vision should embrace the whole 3-19 age range.
3 Organisation strategy across 3-19 age range	Opportunities have been taken where necessary to reduce surplus places and address organisational change, or otherwise improve the efficiency of the school estate. The strategy should refer to inter-authority issues and the full requirements of statutory processes. Reference should also be made here to the demand for Welsh Medium education.
4 Sustainability and CO2 reduction	Strategies for sustainability including carbon dioxide emissions associated with the education estate are in place.
5 Integrated public services, co-location of services and community benefits	Opportunities have been created where possible to co-locate and integrate community services and/or to enhance local or regional regeneration

**Category C condition schools as at 2010**
