

DEAR SIR/M, THERE IS NOW NO QUESTION THAT OUR CLIMATE HAS BECOME MUCH HOTTER IN THE AFTERNOONS WITH WARM NIGHTS MAKING FOR CONSIDERABLE RISK TO FOOD GROWING SYSTEMS, LEADING TO FOOD INSECURITY (I.E) PRECIPITATION EVAPORATES BEFORE IT IS TAKEN UP BY PLANTS AND CROPS, THERE IS ALSO CHANGES IN PRECIPITATION PATTERNS IN BRITAIN AND IN MOST OTHER FOOD EXPORTING COUNTRIES.

I HAVE NOW STUDIED THE U.N I.P.C.C. CLIMATE CHANGE REPORT A SECOND TIME AND WISH TO DRAW YOUR ATTENTION TO THE A.R.5. TECHNICAL SUMMARY PAGE 16.

(I.E) KEY RISKS ACROSS SECTORS AND REGIONS FROM CLIMATE CHANGE ARE,  
① RISK OF DEATH, INJURY AND DISRUPTION TO LIVELIHOODS, FOOD SUPPLIERS, WATER AVAILABILITY AND USE, DISPLACEMENT OF PEOPLE WITH THE HIGH COSTS OF DISRUPTION TO ECONOMIC ACTIVITY (I.E) IMPOSSIBLE TO DO MANUAL WORK IN HIGHER TEMPERATURES, SEA LEVEL RISES BRINGING ADDITIONAL STORM SURGES, MORE FLOODS, MORE COSTLY DROUGHTS (GOVERNMENTS MUST ADDRESS THE ECONOMIC IMPLICATIONS)

② RISK OF FOOD INSECURITY AS FOOD SYSTEMS BREAK DOWN.  
④ KEY RISK IS OF THE LOSS OF RURAL LIVELIHOODS AND INCOME OF RURAL PEOPLE

WITH THE IMPACT ASSESSMENT FROM THIS IS ONE OF REDUCED AGRICULTURAL FOOD PRODUCTION CAUSED BY TOTALY INADDIQUATE INCOME (I.E) GOVERNMENT CUTS CAUSE FOOD INSECURITY AND THEN SHORTAGE, FOOD PRODUCTION IS NOW AT RISK.

THE FOLLOWING ASSESMENTS ARE FACTS (I.E) FOOD SECURITY AND CLIMATE CHANGE ARE NOW INEXORABLY LINKED AND THE MONEY INCOME TO MITIGATE THE ONGOING PROBLEM HAS EVAPORATED IN GOVERNMENTAL CUTS TO FOOD GROWING ABILITY, THIS IS WHY GOVERNMENTAL DECISIONS ARE DANGEROUSLY ANTHROPOGENIC

THEY ARE ALSO FINANCIALLY RUINOUS TO FOOD PRODUCING FARMS.  
IN MY OWN CASE THE ACTUAL "VEHICLES" OF FOOD PRODUCTION WEAR OUT (I.E) DAMAGE TO INFRASTRUCTURE, LIFE THREATENING WEATHER MAKING THE LAND POOR, SO THAT THE LAND THEN REQUIRES INVESTMENT NOURISHMENT WITHOUT WHICH FOOD PRODUCTION WILL FALL BELOW A TIPPING POINT.

FACT, IT THEN ONLY REQUIRES AN EXTREME WEATHER EVENT AN EVENT THAT ALL GOVERNMENTS MUST FULLY REALIZE WILL OCCURE TO BRING INTO QUESTION GOVERNMENTAL FAILURE TO DIRECTLY FUND FOOD PRODUCTION,

YOU DO NOT NEED ME TO TELL YOU THAT SUCCESSIVE GOVERNMENTS HAVE TAKEN AWAY FINANCIAL ABILITY TO FARM AND THAT THEIR SHORT SIGHTEDNESS MEANS THAT THE PATHWAY THY ARE ON HAS NO (FORE SIGHT) COMPETENCE PLAN.

THE FORESIGHT REPORT WAS A WAKE-UP CALL, BUT ALL GOVERNMENTS WENT BACK TO SLEEP THEY FORGOT TO PLAN FOR THE FUTURE & WELLBEING OF PEOPLE.  
NOW WE HAVE THE I.P.C.C. FINAL DRAFT WARNING AND JUST WHAT ARE GOVERNMENTS DO,ING (I.E) THEY ARE CONTINUING TO RELIE ON IMPORTED FOOD

FROM OTHER COUNTRIES KNOWING FULL WELL THAT THE EVIDENCE FROM THE I.P.C.C. SHOWS CLEARLY THAT ALL COUNTRIES MUST ADMINISTER FINANCIAL HELP TO PRODUCE EXTRA FOOD FROM LESS LAND AND THAT GOVERNMENTS MUST AIM FOR 82% OF FOOD GROWN IN EACH AND EVERY COUNTRY, SO THAT WHEN A WEATHER EVENT OCCURES IN 5 COUNTRIES THE OTHER 20 NEAREST COUNTRIES ARE IN A POSITION TO HELP SUPPLY FOOD AND WATER, ELECTRICITY REPAIR MEN AND EVEN MONEY DONATIONS.

THE WORD "COMPETENCE" IS WHAT GOVERNMENTS MUST ADMINISTER NOW.  
yours sincerely  
D.L. Hardwick
