

**P-06-1417 Ban fireworks from shops – Correspondence from the Petitioner,
25 April 2024**

I would like to add a comment towards my petition for fireworks to stop being sold to public and only be used in organised events only to use them as kids ages 11 13 and 14 got hold of them from shops /online and fort it was funny to go into my horses field and chase my beloved horse Max around firing fireworks at him which ended with him being in stress bolting frew a fence and went into a stream with sinking mug and was stuck when I found out and got to him and finely got him out with help of vets and farmers he had no temperature with its being in october time and cold water and inhaled water to lungs .

Vets did everything thay could me and my freinds stayed with him all night but he passed away on his owen

I had him from 6 months old till the day he passed away by fiyerworks and kids !
There getting into wrong hands and hurting /killing people and animals I think they should be organised events only thing !

Thank you
