Dear Rachel

Thank you for the opportunity to feed into the Committee. We were very pleased last year to be able to give evidence at two Inquiries set up by the Economy, Infrastructure and Skills Committee, one on the Rugby World Cup and the other on Infrastructure Priorities. At both meetings we talked about the importance of Cardiff Central station and the need for it to be developed in a way that would allow for increased capacity and create a station fit for a world class City.

As rail travel continues to rise and as the new Metro system will mean South Wales can expect an even higher increase in rail commuter and leisure use, we would like the Committee to consider looking specifically at the future of Cardiff Central station; using the opportunity to review plans for its development to make sure that they are future proof and compliment plans for Cardiff and Wales.

I hope that this is helpful

Best wishes

Jane Jones
