Inquiry into diversity in local government

Ymateb gan: Cyngor Cymuned Llandochau Fach

Response from: Llandough Community Council

The National Assembly be informed that the Council considers that diversity in democracy could be improved by simplifying the process for candidates to submit their nominations for elections to include the introduction of a mobile app to complete and submit nomination forms and the requirement for candidates to hand deliver their nomination forms for prior checking by Elections Officers be removed as this can restrict those working full-time from visiting the designated officer during work time.
