

Cardiff

There is a 3G pitch at Llys tal y bont but this is a training pitch and 3/4 size.

Power leagues and Gol centre playing surface is 3G albeit small sided football, we are also developing small sided 3G pitches across some of our Park sites.

We have developed a specific football strategy for Cardiff, "growing the game" to look at full size provision in partnership with the FAW Trust and will hopefully have our first full size 3G at the University Playing Fields, Llanrumney as a joint initiative between the University, FAW and Cardiff Council this year after the Olympic football has moved off site.

Planning for the 3 G investment will need to consider different operating models which could include School sites, Parks and Voluntary/Private partnerships.

In the Autumn WLGA, WG, Sports Wales and Chief Leisure officers are running a seminar and one of the topic areas will be 3G and the results so far based on Caerphilly. We are looking to invite the Minister for Culture, Sport and Heritage.

The main outcome for us is to centre the 3G around a robust club model to increase, improve and sustain participation whilst also considering decommissioning of grass football pitches to make the future saving and efficiency targets for Parks and Sport. The income model may also help support and sustain the Sporting Hub model as they come on stream.

Monmouthshire

1 X 3G to be installed at Caldicot, the facility will be in place for the autumn of 2012.

Ynys Mon

1 X 3G Pitch in Amlwch Leisure Centre.

Newport

1 X 3G in partnership with the FAW which opens in the next few weeks at the Newport Sports Village.

Flintshire

7 X small 3G pitches approximately 20m x 30m. Two clubs are in the early stages of looking into the potential of building a full size 3G pitch but both are a few years away.

Blaenau Gwent

1 X 3G pitch (graded 2 star) at Abertillery Sports Centre in partnership with the FAW

1 X 3G will be developed as a part of the new sports complex on the Works site in Ebbw Vale and this facility is likely to be completed by September 2013 in preparation for the 2013/14 winter season.

Carmarthen

Indoor Training barn with 3G training area at Parc Y Scarlets

Indoor Training Barn with 3G training area at Carmarthen Athletic RFC

Possibly another indoor 3G barn in Ammanford, on site of Leisure Centre / Comp school

Possibly an outdoor 3G pitch as part of a potential new build leisure complex in Llanelli to replace the existing Leisure centre

Caerphilly

1 X 3G League standard pitch at Pontllanfraith with FAW partnership

1 X 3G full size pitch at Bargoed in partnership with the FAW

1 X 3G threequarter size pitch at Newbridge

Full size league standard football and a full size rugby pitch in partnership with FAW,WRU ,FE college £6.5m project possibly commencing 2012/2013.
